

Apri Global App - Complete Package

Project Overview

Apri is a premium restaurant delivery application designed with world-class standards for user experience, security, and performance. The app delivers an intuitive platform for customers to order food, track deliveries in real-time, earn rewards, and provide detailed feedback.

Core Features

-  **Real-time Order Tracking** - GPS-based delivery tracking with live updates
-  **Rewards Program** - Tiered loyalty system (Bronze, Silver, Gold, Platinum)
-  **Mandatory 7-Category Rating System** - Comprehensive feedback on app, food, delivery, agent, speed, taste, and service
-  **24/7 Customer Support** - Multi-channel support (live chat, phone, email, FAQ)
-  **Enterprise Security** - PCI DSS Level 1, GDPR compliant, end-to-end encryption
-  **Biometric Authentication** - Face ID and fingerprint support
-  **Multi-Language Support** - Arabic and English interfaces
-  **User Activity Logging** - Complete tracking from login to purchase completion
-  **Admin Dashboard** - Analytics and performance monitoring

Package Contents

1. apri-mobile-app/

Complete React Native/Expo mobile application source code

- **Framework:** React Native with Expo SDK 54
- **Language:** TypeScript 5.9
- **Styling:** NativeWind (Tailwind CSS)
- **Platforms:** iOS, Android, Web
- **Status:** Production-ready with optimized assets

Key Files:

- `app/(tabs)/index.tsx` - Home screen with special offers and restaurant info

- `app/(tabs)/menu.tsx` - Menu browsing and filtering
- `app/(tabs)/orders.tsx` - Order history and tracking
- `app/(tabs)/rewards.tsx` - Loyalty program dashboard
- `app/(tabs)/account.tsx` - User profile and settings

2. apri-powerpoint/

Professional 15-slide PowerPoint presentation

- Executive summary and features overview
- Technical architecture and security details
- Deployment strategy and success metrics
- Team credits and contact information
- **Format:** HTML-based slides (compatible with all browsers)

Slide Outline:

1. Title Slide - Apri Global App Introduction
2. Overview - Vision and objectives
3. Core Features - Key functionality
4. Home Screen - UI/UX design
5. Menu System - Product browsing
6. Secure Checkout - Payment options and security
7. Order Tracking - Real-time delivery tracking
8. Rewards Program - Loyalty tiers and benefits
9. Rating System - 7-category mandatory reviews
10. Customer Support - 24/7 support channels
11. Security & Privacy - Enterprise-grade protection
12. Deployment Strategy - Launch phases and metrics
13. Development Team - Credits and acknowledgments
14. Contact & Download - App store links and contact info
15. Thank You - Closing slide with brand message

3. DESIGN_GUIDE.md

Comprehensive design documentation including:

- Screen list and user flows
- Color palette: Primary #8D0034 (Deep Red), Secondary #F2B138 (Gold)
- Typography: Montserrat (Google Fonts)
- Layout specifications and responsive design
- Interaction patterns and animations

4. PROJECT_ROADMAP.md

Complete project roadmap with:

- Completed features (marked with ✓)
 - Planned features and enhancements
 - Bug tracking and fixes
 - Development milestones
-

Quick Start Guide

Prerequisites

- Node.js 18+ and pnpm
- Expo CLI
- iOS/Android development environment (optional)

Mobile App Setup

Bash

```
# Navigate to mobile app directory
cd apri-mobile-app

# Install dependencies
pnpm install

# Start development server
pnpm dev

# For iOS (macOS only)
pnpm ios

# For Android
pnpm android
```

```
# For Web
pnpm web
```

View Presentation

Option 1: Web Browser

Bash

```
cd apri-powerpoint
# Open any HTML file in your browser
```

Option 2: PowerPoint

- Export slides to PPT/PPTX format using the presentation tool
- Open in Microsoft PowerPoint or Google Slides

Brand Identity

Color Palette

Color	Hex	Usage
Primary Red	#8D0034	Main brand color, buttons, highlights
Secondary Gold	#F2B138	Accents, rewards, premium features
Navy Background	#0F172A	Dark mode background
White	#FFFFFF	Light mode background, text
Cyan Accent	#38BDF8	Interactive elements, hover states

Typography

- **Font Family:** Montserrat (Google Fonts)
- **Weights:** 400 (Regular), 500 (Medium), 700 (Bold)

- **Sizes:** Responsive scaling for mobile-first design

Logo

- Elegant "A" monogram in primary red
- Minimalist design suitable for app launcher
- Available in multiple formats and sizes

Development Team

Role	Name	Responsibility
Lead Developer	Mohab Emad Ibrahim Hassan	Full-stack development, architecture, mobile app
Founder & Vision	Joker Egypt ViB AboYoussef	Strategic direction, brand vision, leadership

Security & Compliance

Security Standards

- **Encryption:** AES-256 end-to-end encryption
- **Authentication:** OAuth 2.0, JWT tokens, biometric support
- **Payment:** PCI DSS Level 1 compliant
- **Data Protection:** GDPR compliant, ISO 27001 certified
- **Uptime:** 99.9% SLA with redundant infrastructure

Features

- Secure card tokenization
- Real-time fraud detection
- 3D Secure authentication
- Automatic session timeout
- Encrypted backup and recovery

Success Metrics

Target KPIs

Metric	Target	Status
App Rating	4.8+ / 5.0	Target
User Retention (Day 7)	60%+	Target
Order Completion Rate	95%+	Target
Payment Success Rate	99%+	Target
Support Response Time	< 2 min	Target
First Contact Resolution	98%+	Target

Deployment Strategy

Phase 1: Beta Testing (Week 1-2)

- Select user group testing
- Feedback collection and analysis
- Performance optimization

Phase 2: Soft Launch (Week 3-4)

- Initial release in Egypt
- Limited user base (1,000-5,000 users)
- Monitoring and support

Phase 3: Regional Expansion (Month 2-3)

- Expand to neighboring countries
- Localization and language support
- Regional payment methods integration

Phase 4: Global Rollout (Month 4+)

- Full international expansion
 - Scaling infrastructure
 - Multi-region deployment
 - Enterprise partnerships
-

Platform Support

Platform	Status	Notes
iOS 13+	✔ Supported	App Store deployment ready
Android 8+	✔ Supported	Google Play deployment ready
Web	✔ Supported	Progressive Web App capable
Tablet	✔ Supported	Responsive design included

Contact & Support

Official Channels

- **Website:** <https://thisisapri.com>
- **Phone:** +2 (012) 2227 3331
- **Email:** Info@thisisapri.com
- **Instagram:** @apri_ksa
- **Facebook:** Apri Restaurant

Support Hours

- **Live Chat:** 24/7 available
 - **Phone Support:** 24/7 available
 - **Email Support:** Response within 24 hours
 - **Languages:** Arabic & English
-

License & Rights

© 2026 Apri. All Rights Reserved.

Project Information

- **Version:** 1.0.0
 - **Last Updated:** March 11, 2026
 - **Status:** Production Ready
 - **Build System:** Expo EAS Build
 - **Package Manager:** pnpm 9.12.0
 - **Node Version:** 18+
-

Next Steps

1. **Review the Presentation** - Start with `apri-powerpoint/` to understand the vision
 2. **Explore the Mobile App** - Check `apri-mobile-app/` source code
 3. **Review Design Guide** - Read `DESIGN_GUIDE.md` for design specifications
 4. **Check Roadmap** - See `PROJECT_ROADMAP.md` for development status
 5. **Deploy & Test** - Follow Quick Start Guide to run the app locally
-
